

## **Current Activities**

SACC-Ohio assists corporations and individuals in the Ohio region who seek to expand or cultivate relations with Sweden or Scandinavia.

SACC-Ohio supports activities in both directions.

- To our region's companies and individuals who seek to develop relations with companies in Sweden or Scandinavia
- To Swedish companies and individuals who seek to develop relations with companies in our region.

SACC-Ohio networks with local authorities, organizations and companies, in Scandinavia and the US, to assist members in:

- Developing new markets
- Performing regional market research
- Finding business partners
- Establishing subsidiaries
- Establishing local distribution
- Finding financing sources

SACC-Ohio serves as a meeting point for members to network and exchange experiences and views on how to improve business activities between the Ohio region and Scandinavia.

We organize networking through regular business and social functions, through seminars with guest speakers, and through business match-making opportunities and programs to help create and grow trade, commerce and investment between Scandinavia and our region.

Members are encouraged to influence the programs offered. Although our focus is on business, social gatherings may include golf outings, crayfish parties and Saint Lucia celebrations.
